To Whom It May Concern:

AMS Voicecom has entered into Alternative Compensation Agreements (“ACA”) with its connecting carriers for the payment of 100% of all of AMS Voicecom’s end-user customers’ toll-free access traffic originating from payphones. Accordingly, pursuant to 47 C.F.R. §§ 64.1310 and 64.1320, AMS does not conduct its own call tracking system audits, nor does it employ a third-party auditor to verify such underlying systems. Notwithstanding the foregoing, AMS believes its underlying carriers do fulfill their respective obligations in this regard pursuant to relevant Federal Communication Commission regulations. Any payphone service provider desiring more information, or the opportunity to examine the ACAs, may contact me directly by clicking on my typed name below.

A large, stylized handwritten signature in black ink, appearing to read 'Robert Y Guler', is written over the typed name.
